

JOB PORTAL

Platform Flow, Process, Field Specification & UI Layouts

Prepared by Omrie Digital

1. Job Portal - Normal Flow Chart

Fig 2.1 — Overall system flow across Job Seeker, Company and Admin portals

Note: A company can only start posting jobs after its account has been reviewed and approved by the Admin. Until then, the account remains in a Pending state and cannot create job listings.

2. Process Breakdown

Process A - Job Seeker Journey

1. Sign up / Login to the portal.
2. Create profile and upload required documents (resume, ID proof, certificates, photo).
3. Browse jobs and apply filters — Full-time / Part-time, Remote / Hybrid / On-site.
4. Apply to selected job(s).
5. Track application status — Selected / Rejected / Pending.

Process B - Company (Employer) Journey

1. Sign up / Login and register the company account.
2. Account remains Pending until reviewed by Admin.
3. Once Approved by Admin, the company gains access to job creation tools. (If rejected, the account cannot proceed further.)

- 4. Create a job posting with role details, requirements, and work mode.
- 5. View applications received against each posted job.
- 6. Change applicant status to Selected or Rejected.

Process C - Admin Journey

- 1. Login to the Admin dashboard.
- 2. Review new company registrations.
- 3. Approve or Reject company accounts before they can post jobs.
- 4. Monitor all data - job seeker profiles, company activity, job postings, and applications.
- 5. Block or unblock any company at any time in case of policy violation or misuse.

3. Suggested Fields

3.1 Login - Job Seeker

Field / Element	Type / Input	Notes
Email Address / Phone Number	Text / Number input	Used as the unique identifier for login
Password	Password input	Masked, with show/hide toggle
Remember Me	Checkbox	Optional, keeps session active on trusted devices
Forgot Password	Link	Triggers OTP / email reset flow
Login Button	Primary action button	Labelled "Login as Job Seeker"
Switch to Sign Up	Link	"New here? Create a Job Seeker account"

3.2 Login - Company / Employer

Field / Element	Type / Input	Notes
Work Email Address	Text input	Company-registered email used as the identifier
Password	Password input	Masked, with show/hide toggle
Remember Me	Checkbox	Optional, keeps session active on trusted devices
Forgot Password	Link	Triggers OTP / email reset flow
Account Status Indicator	System banner (post-login)	Shows Pending Approval / Approved / Rejected / Blocked; job creation stays locked until Approved
Login Button	Primary action button	Labelled "Login as Company"
Switch to Sign Up	Link	"New company? Register your company"

3.3 Sign Up - Job Seeker

Field / Element	Type / Input	Notes
Full Name	Text input	Mandatory
Date of Birth	Date picker	Optional, used for eligibility checks
Email Address	Text input	Verified via OTP / link
Phone Number	Number input	Verified via OTP
Current Location	Text / Dropdown	City, State
Password & Confirm Password	Password input	Strength validation
Highest Qualification	Dropdown	Graduate / Postgraduate / Diploma, etc.
Total Experience	Dropdown	Fresher / 1–3 / 3–5 / 5+ years
Terms & Conditions	Checkbox	Mandatory before submission

3.4 Sign Up — Company

Field / Element	Type / Input	Notes
Company Name	Text input	Mandatory
Industry / Sector	Text / Dropdown	e.g., Real Estate, IT, Construction
Work Email Address	Text input	Verified via OTP / email link
Company Phone Number	Number input	Verified via OTP
Company Registration No. / GST	Text input	Required for Admin verification
Password & Confirm Password	Password input	Strength validation
HQ Location	Text / Dropdown	City, State, Country
Company Logo / Registration Document Upload	File upload	PDF/JPG — reviewed by Admin during approval
Terms & Conditions	Checkbox	Mandatory before submission
Post-submit Status	System-generated	Account created as "Pending Admin Approval"; job creation locked until Approved

3.5 Applied / Application Forms

Field / Element	Type / Input	Notes
Applicant Name	Auto-filled	From profile
Resume / CV	File upload	PDF/DOC, mandatory
Cover Letter	Text area	Optional
Expected Salary	Number input	Optional
Notice Period	Dropdown	Immediate / 15 / 30 / 60 days
Portfolio / LinkedIn URL	Text input	Optional
Application Status	System-generated	Applied / Under Review / Selected / Rejected

3.6 Create a Job (Company Side)

Field / Element	Type / Input	Notes
Job Title	Text input	Mandatory
Department / Category	Dropdown	e.g., Engineering, Sales, Design
Job Type	Dropdown	Full-time / Part-time / Internship / Contract
Work Mode	Dropdown	Remote / Hybrid / On-site
Location	Text / Dropdown	City, state, country

Salary Range	Number range	Optional, can be hidden from candidates
Job Description	Rich text area	Roles & responsibilities
Required Skills	Tag input	Multi-select skill tags
Application Deadline	Date picker	Optional
Number of Openings	Number input	Optional

3.7 Dashboard Layout

Field / Element	Type / Input	Notes
Job Seeker Dashboard	Widgets	Profile completion %, applied jobs, saved jobs, recommended jobs
Company Dashboard	Widgets	Active job postings, total applications, shortlisted candidates, approval status
Common Elements	Navigation	Sidebar menu, top search bar, notification bell, profile avatar

Field / Element	Type / Input	Notes
Analytics Widgets	Charts	Applications over time, status breakdown (company side)

3.8 Admin Tabs — Field Summary

Field / Element	Type / Input	Notes
Dashboard	Overview	Platform-wide stats: total users, companies, jobs, applications
Company Approvals	List + actions	Pending / Approved / Rejected company accounts, with Approve/Reject buttons
Manage Companies	List + actions	Search, view, block/unblock any company
Manage Job Seekers	List	View job seeker profiles and activity
Job Listings	List + actions	View/moderate all job postings across companies
Reports & Analytics	Charts/tables	Platform usage, growth, and engagement metrics
Settings	Config	Roles, permissions, platform-wide configuration

4. UI Layout Visuals - Desktop

4.1 Login Page - Job Seeker & Company (side-by-side)

The screenshot displays the Job Portal login interface. At the top, a dark header contains the forum dashboard number (3256), a breaking news banner, the user's name (Howdy, User), and navigation links (Jobs, Companies, Resources, For Employers, About). The main header features the Job Portal logo and a navigation bar with 'Login' and 'Sign Up' buttons. Below the header, a large dark banner welcomes users back and provides a brief description of the platform. The login section is divided into two side-by-side panels. The left panel is for Job Seekers, featuring fields for 'Email Address or Mobile Number' and 'Password', a 'Remember me' checkbox, a 'Forgot Password?' link, and a 'Login as Job Seeker' button. The right panel is for Companies, featuring fields for 'Work Email Address' and 'Password', a 'Remember me' checkbox, a 'Forgot Password?' link, and a 'Login as Company' button. Both panels include a 'Register' link and a note about company account approval.

Fig 6.1 — 6.1 Login Page — Job Seeker & Company (side-by-side)

4.2 Sign Up Page - Job Seeker & Company (side-by-side)

The screenshot displays the Job Portal sign-up interface. At the top, a dark header contains the forum dashboard number (3256), a breaking news banner, the user's name (Howdy, User), and navigation links (Jobs, Companies, Resources, For Employers, About). The main header features the Job Portal logo and a navigation bar with 'Login' and 'Sign Up' buttons. Below the header, a large dark banner welcomes users back and provides a brief description of the platform. The sign-up section is divided into two side-by-side panels. The left panel is for Job Seekers, titled 'JOB SEEKER SIGN UP Build your profile & get hired'. It includes fields for 'Full Name', 'Date of Birth', 'Email Address', 'Phone Number', 'Current Location', 'Password', 'Confirm Password', 'Highest Qualification', and 'Total Experience'. It also features a 'Verified via OTP link' section and a 'Create Job Seeker Account' button. The right panel is for Companies, titled 'COMPANY SIGN UP Hire verified, quality candidates'. It includes fields for 'Company Name', 'Industry / Sector', 'Work Email Address', 'Company Phone Number', 'Company Registration No. / GST', 'Password', 'Confirm Password', 'HQ Location', and 'Company Logo / Document Upload'. It also features a 'Verified via OTP / email link' section and a 'Submit for Admin Approval' button. Both panels include a 'Login' link for existing users.

6. Admin Dashboard - What Each Tab Manages

6.1 Dashboard (Overview)

The Admin's landing screen - a real-time snapshot of the entire platform.

- Platform-wide counters: total Job Seekers, total Companies, pending approvals, active job listings, total applications.
- Quick-access shortcut into the Pending Company Approvals queue whenever there are accounts waiting for review.
- Recent activity feeds new sign-ups, new job postings, and recently closed applications.
- High-level growth trend (new users/companies this week vs last week).

6.2 Company Approvals

The core moderation queue every new company account lands here before it can post jobs.

- List of companies in Pending, Approved, and Rejected states, filterable by status and date submitted.
- Per-company detail view: company name, registration number/GST, uploaded verification document, HQ location, contact email/phone.
- Approve action unlocks job-creation tools for that company and notifies them.
- Reject action requires/allows a reason, notifies the company, and keeps the account blocked from posting.
- Optional "Request more information" action for incomplete submissions.
- Full audit trail of who approved/rejected an account and when.

6.3 Manage Companies

The directory of all companies that have passed approval day-to-day company oversight.

- Search and filter by company name, industry, location, or account status (Active / Blocked).
- View a company's profile, its active job postings count, and total applications received.
- Block / Unblock action for policy violations or misuse, with a reason field for the audit log.
- Edit or correct company details on the company's behalf if needed.
- View a company's activity history (jobs posted, applications received, status changes made).

6.4 Manage Job Seekers

Visibility into the candidate side of the platform.

- Searchable list of all registered Job Seekers with filters by location, skill, or activity status.
- View individual profiles, uploaded documents, and their full application history and current statuses.
- Ability to flag, restrict, or block a profile in case of fraudulent activity or policy abuse.
- Export candidate data for reporting purposes (subject to data-privacy rules).

6.5 Job Listings

Central moderation view of every job posted on the platform, across all companies.

- List/table of all listings with filters by status (Active / Closed / Draft / Expired), company, or category.
- View full listing detail and applicant count for any job.
- Moderate or remove listings that violate platform guidelines (e.g., misleading or duplicate postings).
- Feature or promote select listings on the platform home page, if that capability is enabled.

6.6 Reports & Analytics

Platform-level business intelligence for tracking growth and engagement.

- Charts for new sign-ups over time, split by Job Seekers vs Companies.
- Job posting trends and application-conversion rates (applied → shortlisted → selected).
- Most active companies and most in-demand job categories/locations.
- Exportable reports (CSV/PDF) for stakeholder or investor reporting.

6.7 Settings

System-level configuration for the whole platform.

- Admin roles & permissions create sub-admin accounts with restricted access (e.g., approvals-only admin).
- Notification templates for email/SMS approval, rejection, application-status-change messages.
- Manage job categories/departments and dropdown master data used across the platform.
- General platform settings branding, homepage content, Terms & Conditions and Privacy Policy text.
